Dear Jeanine

What a lazy Sunday this has turned out to be. I didn't get up until 10 o'clock. I started to go to the 11 o'clock mass but I ran into Captain Anderson who is second in command of trinidad. He wanted to know if it would be possible to leave for Trinidad early. The guy I'm replacing is leaving this month and they are starting several new ??? and need a warm body to help out. I'm sure glad I started working on this new radar technique because I'm sure my boss won't let me go until I finish. Of course I don't plan on finishing until August at which time I go on leave in dear old San Antonio.

I called Dothy? Today to see if they would mind having guest for the weekend. I made her promise to let me know if our presence would delay Bill from finishing his thesis. If this happens I figure we can either stay in Charlotte or drive up and meet your parents. She said she would call in about a week to let me know how Bill was getting along. But the way if something comes up and you need to call me the number is FF75720 in Rome, NY. Don't feel bad about calling collect because I won't accept any pre-paid calls.

You know I don't think I've answered any of the questions you asked in your letters. Rather than start now I'll promise to answer them in person in July.

I see where I'm going to have trouble again when I pick you up. I see a girl once in Three years and what's the first thing she does – goes out and cuts her hair. Oh well you'll just have to send me a picture of yourself.
