Dear Jeanine

I haven't received any mail since Monday. There was supposed to be a plane in today, but it didn't make it. The next one due is coming in ?? (I hope)

Tonight I went to a party at the General electric Mess hall. They had lots of food and liquor but I didn't stay long. It seems I caught a good cold yesterday. Don't ask me how that's possible in this weather because I don't know. I hope I get over it soon because I can't hear a thing. Oh well, it should keep me out of trouble.

Actually the weather down here hasn't been too bad. I understand this is the worst time of the year because of the rain. I think I caught this cold by being out in the rain. The Temperature is so warm you wouldn't think it were possible to catch a cold.

Honey I don't feel much like writing tonight so I think I'll close and try and get some rest. I hope everything is fine back home. Be sure and tell everyone hello for me. The length of this letter is no measure of my love for you. It seems like the longer we are apart the more I would like to hold you on at ?? talk to you. However with the mail situation I'm sure I'll be thankful just to receive your letters.

Until tomorrow All my love,
Larry

FIRM MAIL

Dear Jeanine

Thursday

I haven't received any mail since Mon. There was suppose to be a plane in today but it didn't make it. The next one due is coming in Sat (I hope).

Tonight I went to a party at the General Electric Mess Hall. They had lots of food and liquor but I didn't stay long. It seems I caught a good cold yesterday. Don't ask me how that's possible in this weather because I don't know. I hope I get over it soon because I can't hear a thing. At well it could keep me out of trouble.
